

# Light – Cutlery

Light is a lightweight cutlery series with functional design which facilitates the use and eating when strength and mobility in hands and arms is restricted. The cutlery is available in various models and is dishwasher-safe.

## Cutlery with thick handles

The cutlery is lightweight, gentle on the joints and relieves strain on the fingers. The handles are oval to sit securely in the hand and allows various grips. The spoon has a slightly longer and thinner handle to make a grip in the hollow between the thumb and index finger comfortable. To make cutting easier the knife handle has a slope for the thumb to rest and a sharp blade.

Description	Dimensions	Weight	Item no.
