

SAFE LIVING AT HOME

## *Westfalia range*

The care beds  
with versatile advantages

# Westfalia-Klassik

## The care bed with special features

The Westfalia-Klassik is designed for discerning users who are not prepared to compromise on comfort and sophisticated technical features in their daily care routine. This care bed looks good in every situation: If the full-length safety side is lowered, its bars rest on top of each other **without a gap**. When it is raised, **attractive wooden panels** conceal the bed frame along both sides of the bed.

With its adjustable height range of **35 to 80 cm**, the Westfalia-Klassik promotes fall prevention, can be easily adjusted to the ideal height for getting in and out of bed and allows caregivers to work at a back-friendly height.

The 4-section metal mattress base, with its **sliding backrest**, is designed to adapt to any position that the resident wishes to adopt and follows the natural movement of the resident's body during adjustment. Its slats are designed for easy and thorough cleaning.

The Westfalia Klassik features a **central braking system** as standard. One press of the brake lever is enough to securely immobilise the bed.

## Strong advantages

- Electrically adjustable lower leg rest
- 200 kg safe working load, 4-section mattress base
- Attractive wooden surrounds available
- Robust, high-quality castors with central locking
- Cost-saving 24-volt system
- Height adjustment range 35 to 80 cm
- Handset with selective locking function
- Sliding backrest
- No leakage current measurements during expected service life

### External dimensions/height adjustment range:

### Special features:

# Custodians of values Shapers of the future

## STIEGELMEYERGROUP

### Custodians of values

Our company was founded in Herford in 1900 and is still a family-run enterprise today. Respect and a sense of responsibility towards our customers, employees and partners form the basis for our day-to-day work. Based on these values and our many years of experience, we offer our customers all over the world high-quality products, solutions and services to meet the needs of the care and healthcare sectors.

### Shapers of the future

In order to cope with rapid changes in the care and healthcare sectors, we develop all our products ourselves. Creating innovations and visions of what care will be like in future are the goals we pursue. We maintain regular contact with our customers in order to support them in their daily tasks. Implementing tomorrow's trends today is a successful tradition of ours.
