

WALL HANGING SYSTEMS
WIRE PANELS NC

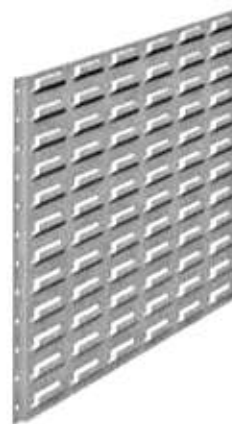

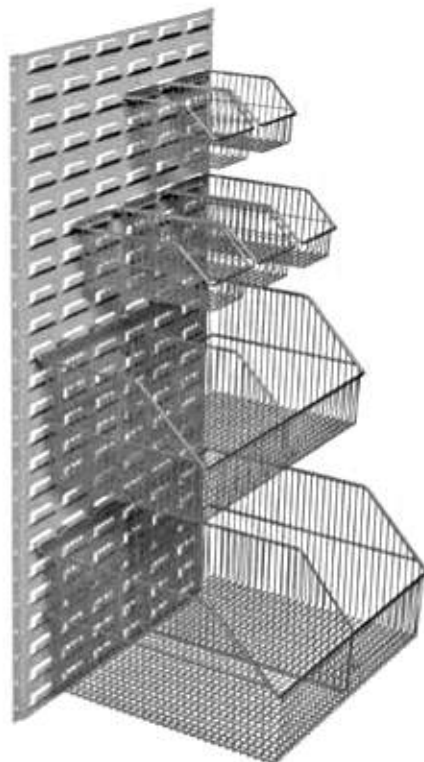

This new method of storage for the Wall Basket system introduces a wire retaining system fully compatible for our range of close mesh baskets. This unique system addresses infection prevention issues with the capability of cleaning and dusting behind the wall panel system. This system is modular, size 460mm (high) x 460mm (wide) and can be attached to the wall side by side or above each other. Manufactured from nickel chrome plated wire this system is durable and easy to install.

WALL BASKET SYSTEMS

Storage Solutions – Clean Environment

a new basket system featuring a close mesh design with particular applications for wall mounting on louvered panels and wall hanging systems. These baskets offer a much improved alternative to the plastic storage trays and significantly reduce the opportunity of dust collection, thereby addressing infection prevention.

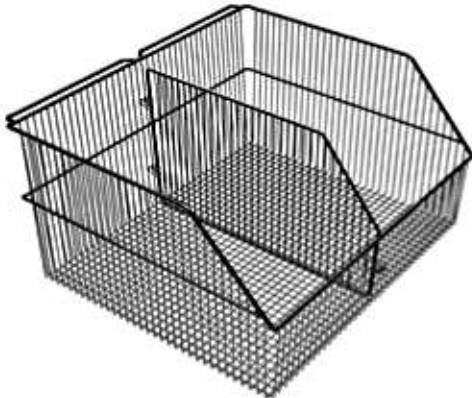

- Eliminates collection of dust on the base of the basket
- Close mesh design allows storage of smaller items
- Light weight and extremely robust
- Four sizes to choose from which provides storage solutions for any applications
- Dividers available for the two larger size baskets

The nickel chrome plated wire construction ensures strength and durability and are easily cleaned and maintained.
